WHO SHOULD ATTEND:

- ▲ SANITARIANS ▲ PHYSICIANS ▲ PUBLIC HEALTH NURSES
- ▲ PUBLIC HEALTH EDUCATORS ▲ RENTAL PROPERTY OWNERS
- ▲ PHYSICIAN ASSISTANTS ▲ ENVIRONMENTAL HEALTH SPECIALISTS
- ▲ HEALTH OFFICERS ▲ BUILDING INSPECTORS ▲ CONTRACTORS
- ▲ NURSE PRACTITIONERS ▲ OTHER HEALTH AND MEDICAL PROFESSIONALS

MONDAY, DECEMBER 5 & TUESDAY, DECEMBER 6, 2005  
Monona Terrace Convention Center, Madison, WI

## Environmental Health in Wisconsin: *A Local Perspective*

combined with the The 10th Annual Conference on

## Childhood Lead Poisoning Prevention and Treatment

Including ***Continuing Medical Education sessions for  
health care professionals!***

**Conference Sponsors:**

Wisconsin Department of Health and Family Services, Division of Public Health, Bureau of Environmental and Occupational Health  
Wisconsin Environmental Health Network  
University of Wisconsin Medical School

**Environmental Health in Wisconsin: A Local Perspective**  
***Look Out for Lead 2005: The 10th Annual Conference on***  
***Childhood Lead Poisoning Prevention and Treatment***  
***Including Continuing Medical Education Credit sessions for health***  
***care professionals!***

# Environmental Health in Wisconsin: A Local Perspective & Look Out For Lead 2005

## AGENDA

### Monday, December 5, 2005

**8:00-9:00am** CME Session\* (open to all)

***Environmental Health Hazards in Wisconsin's Air Water, and Soil—What Physicians Should Know and What They Can Do*** **CME/CEU**

Henry Anderson, MD, Chief Medical Officer, WI DHFS

Leo Trasande, MD, Assistant Professor, Community & Preventive Medicine, Mount Sinai School of Medicine, New York

Arjun Makhijani, PhD, President and Senior Engineer, Institute for Energy and Environmental Research, Takoma Park, Maryland

Monica Vohmann, MD, Group Health Cooperative, Capitol Clinic; Assistant Clinical Professor, Dept. of Family Medicine, UW-Madison

**8:00am** Registration (coffee & pastries provided)

**9:15am** Welcome & Opening Remarks

**9:30am** Keynote: ***What Do Physicians Know About Environmental Health?*** **CME/CEU**

Philip J. Landrigan, MD, Professor & Chair, Community & Preventive Medicine, Mount Sinai School of Medicine, New York

**10:30am** Break

**10:50am** Breakout Session I (CME/CEU sessions)

**12:00pm** Lunch (provided)

**1:00pm** Breakout Session II (CME/CEU sessions)

**2:10pm** Break

**2:30pm** Breakout Session III (CME/CEU sessions)

**4:00pm** Panel Presentation: ***Improving Environmental Public Health: The roles of advocacy, enforcement, research & individual patient care*** **CME/CEU**

Stan Gruzynski, Director, Rural Leadership Institute and Community Development Program, College of Natural Resources, UW - Stevens Point

Philip J. Landrigan, MD, Mount Sinai, NY

Arjun Makhijani, PhD, Takoma Park, MD

Peggy A. Lautenschlager, JD, Attorney General, Wisconsin Department of Justice

**5:00pm** Poster Session and Reception

### Tuesday, December 6, 2005

**8:00am** Registration (coffee & pastries provided)

**8:30am** Welcome & Opening Remarks

**9:00am** Plenary Session

***Eliminating Lead Poisoning in Wisconsin by Year 2010: Where Do We Stand in 2005?***

Catherine Slota-Varma, MD, Shoreview Pediatrics, Milwaukee, WI

**10:00am** Break

**10:30am** Breakout Session IV

**11:40am** Lunch (provided)

**12:45pm** Late Breaking Session:

***Where do Smart Growth and Environmental Public Health Meet?***

Speaker TBA

**2:15pm** Break

**2:30pm** Breakout Session V

**3:40pm** End (exhibitor prize drawing, coffee and cookies for the trip home)

\* Up to 6.5 hours of Continuing Medical Education (CME) credits will be awarded for attendance at specific sessions on Monday, December 5, 2005. To register for CMEs, see the registration form.

### Statement of Need

**Local Health Department Personnel:** Every day, LHDs have to respond to and make decisions to protect the public's health from a variety of ever changing environmental health hazards.

**Clinicians:** There is a lack of information and teaching as part of medical education on environmental health issues for clinicians. There is also a need for cooperation between individuals with health science knowledge and individuals with clinical practice experience and public health practitioners.

### Intended Audience

The conference is intended for: sanitarians, physicians, building inspectors, physician assistants, lead professionals, nurse practitioners, public health educators, nurses, rental property owners, environmental health specialists, health officers, public health nurses, contractors, public health, medical and nursing students and other professionals.

# Environmental Health in Wisconsin: A Local Perspective & Look Out For Lead 2005

## KEYNOTE SPEAKER

**Philip J. Landrigan, MD**

*Professor & Chair, Department of  
Community & Preventive Medicine  
Professor, Department of Pediatrics  
Mount Sinai School of Medicine, New  
York*

### CME/CEU SESSION

Dr. Landrigan is the director of the Center for Children's Health and the Environment (CCHE) of the Mount Sinai School of Medicine whose mission is to protect children against environmental threats to health. Their research is focused on examining the health hazards of pesticides, persistent organic pollutants, heavy metals and air pollutants. CCHE is working to develop strategies to prevent environmentally associated learning disabilities, asthma, obesity and cancer.

For information about the conference online, go to: [dhfs.wi.gov/eh](http://dhfs.wi.gov/eh)

## PANEL DISCUSSION

**Improving Environmental Public Health: The roles of advocacy, enforcement, research, and individual patient care** CME/CEU SESSION

**Stan Gruzynski**, Director, Rural Leadership Institute and Community Development program, GEM Education Center, College of Natural Resources, UW - Stevens Point

**Philip J. Landrigan, MD**, Mount Sinai School of Medicine, New York

**Arjun Makhijani, PhD**, President and Senior Engineer, Institute for Energy and Environmental Research, Takoma Park, MD

**Peggy A. Lautenschlager, JD**, Attorney General, Wisconsin Department of Justice

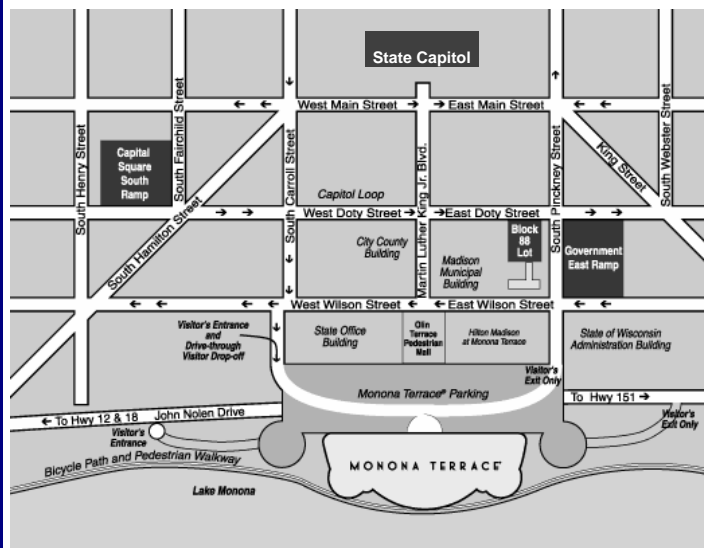

CME/CEU sessions are sponsored by the University of Wisconsin Medical School and the Wisconsin Environmental Health Network (WHEN). For more information about WHEN, visit [www.wiscenvirohealth.org](http://www.wiscenvirohealth.org).

### **The following organizations are acknowledged for their support of the conference:**

Local health departments across Wisconsin  
Association of State and Territorial Health Officers  
National Association of County and City Health Officials  
National Association of Local Boards of Health  
U.S. Agency for Toxic Substances and Disease Registry  
U.S. Centers for Disease Control and Prevention  
U.S. Department of Housing and Urban Development  
WI Academy of Family Physicians  
WI Asthma Coalition  
WI Chapter of the American Academy of Pediatrics  
WI Department of Natural Resources  
WI Environmental Health Network  
WI Poison Center, Children's Hospital of Wisconsin  
WI State Laboratory of Hygiene

## LOCATION

**Monona Terrace Convention Center**  
One John Nolan Drive  
Madison, WI 53703

# CONFERENCE BREAKOUT

## **Breakout Session I** (Choose one)

10:50am - 12:00pm, Monday, December 5th

### **CAFOs and Public Health**

*Chuck Warzecha, Research Scientist, Health Hazards Evaluation, WI Dept. of Health and Family Services*

#### **Local Health Department representatives**

This session describes issues faced by local health departments when problems arise at a concentrated animal feeding operation. Includes examples of recent incidents and future industry and regulatory trends. We promise not to spoil your lunch!

### **Communicating Public Health Risk**

*Stephanie Marquis, Communications Director, WI DHFS*

This interactive session will cover basic techniques to develop your message for the media and the general public.

### **Environmental Assessment Tools Available: Hands On Training and Familiarization**

*James M. Morrison, Public Health Educator, Health Hazards Evaluation, WI DHFS*

This session will introduce attendees to services available through the WI State Lab of Hygiene and to direct reading monitoring equipment available through DHFS. Learn about and work with a variety of instruments: particulate meters, photoionization detectors, indoor air quality meters, SUMMA canisters and others.

### **Environmental Health Clinical Assessment Tools**

*Ernest Sremski, MD, MBA, Medical Director, Poison Center, Children's Hospital of Wisconsin*

Learn how to do an appropriate environmental health assessment for your patients. **CME/CEU**

### **Getting and Implementing a HUD Grant**

*Jeri Dreikosen, HUD Program Manager and Public Health Nurse/Risk Assessor, Sheboygan County Health Department, Sheboygan*

*Paul Orlowski, Program Manager, Kenosha County HUD Program, Kenosha*

Learn insightful tips for preparing an HUD grant application and tools to make the process of implementing a grant most effectively. Examples from successful HUD grantees. **LOL**

### **Creating a Green Clinic**

*Ann Behrmann, MD, Assistant Clinical Professor of Pediatrics, UW Medical School, and Pediatrician, Group Health Cooperative, Madison*

*Susan Padberg, MD, DABMA, Medical Acupuncturist, private practice, Madison, WI*

Learn how to design and to facilitate an environmentally friendly clinic for you patients and co-workers. **CME/CEU**

### **Local Health Department Response to EH Issues in WI: A Southeastern Regional Perspective**

#### **Local Health Department representatives**

A breakout series covering, each for a different region, case studies of the LHD role in EH around the state. Topics: well water testing, pesticide contamination at former orchards, MGP site cleanup, Brownfield redevelopment projects, manure spills, septic systems, landfill issues, Meth labs, and more. (specific topics/cases TBA)

### **Silver Fish in Wisconsin: Mercury Fish Advisory Awareness and Consumption Information**

*Lynda Knobeloch, PhD, Toxicologist, WI DHFS*

*Candy Schrank, Fish Contaminant and Aquatic Toxicology Specialist, WI DNR*

This session will include two discussions 1) the results from the DHFS mercury hair study and 2) work done by the Great Lakes Protocol for Uniform Mercury Fish Advisories.

### **Home Pesticide Use: Hidden Dangers**

*Claire Gervais, MD, Assistant Clinical Professor, Dept. of Family Medicine, UW Madison; UW Health Meadowood Clinic*

The goal of this session is to inform clinicians and citizens about the risks of commonly used household and landscape pesticides and discuss ways to reduce use of these products. **CME/CEU**

## **Breakout Session II** (Choose one)

1:00pm - 2:10pm, Monday, December 5th

### **Asthma in WI: A Fresh Look at a Persistent Issue**

*Livia Navon, Epidemiologist, WI DHFS*

#### **Representatives from Local Asthma Coalitions**

This session will provide recent WI statistics on asthma prevalence, health care usage and mortality. Gain an understanding of vulnerable subgroups affected by asthma and steps to reduce the impact of asthma in the state. Includes an update on local asthma coalition activities in WI.

### **Blood Lead Testing of High Risk Populations**

*Margie Coons and Jeff Havlena, Childhood Lead Poisoning Prevention Program, WI DHFS*

*Monica Leonard, CDC, Atlanta, GA*

An update on testing rates in high-risk populations, including refugees and other children targeted for blood lead testing. **LOL**

### **Cultural Competency**

Explore different ways local health departments have been able to successfully work with all populations. Discussions on 1)

For information about the conference online, go to: [dhfs.wi.gov/eh](http://dhfs.wi.gov/eh)

**LOL:** Session suggested for those interested in childhood lead poisoning prevention topics.

# SESSION DESCRIPTIONS

creating and qualifying Spanish interpreters; 2) working with the Amish; 3) an African American perspective; and 3) working with the Hmong.

## **How to Develop a Case Against a Bad Actor Landlord**

*Gwendolyn J. Cooley, Assistant Attorney General, Wisconsin Department of Justice*

The essentials of case file preparation for lead risk assessments before presenting a case to the District Attorney. Will include an overview of preparing effective orders, chain of custody and documentation of evidence. **LOL**

## **Local Health Department Response to EH Issues in Wisconsin: A Northern Regional Perspective**

See Breakout I for description

## **Meth Labs in WI: Child Endangerment Issues**

*Bonnie Leonard, RN, Public Health Nursing Supervisor, Polk County Health Department*

Up to 20% of homes that are illegal drug labs have kids living in them. Learn how to protect this vulnerable group from the physical and chemical hazards that are found at meth labs.

## **Patient Education Materials on Environmental Health Topics**

*Katherine Davey, National Program Manager, Healthy Homes Partnership and UW Extension*

*Monica Vohmann, MD*

Exploring available materials for patient education about environmental health. **CME/CEU**

## **WI Agriculture: Protecting Producers and Consumers from Environmental Health Hazards**

*Andrew Hanson, JD, Attorney, Midwest Environmental Advocates*

*Steven Kirkhorn, MD, MPH, Medical Director, National Farm Medicine Ctr, Marshfield Clinic; Clinical Professor, Occupational and Agricultural Medicine, UMN Medical School and UW Medical School*

Understand the environmental impact of large farming operations, the environmental hazards inherent in farming and the health effects of agricultural work. **CME/CEU**

## **Differential Risks from Exposure to Ionizing Radiation**

*Arjun Makhijani, PhD, President and Senior Engineer, Institute for Energy and Env. Research, Takoma Park, MD*

*Jeff Patterson, DO, Professor, Dept. of Family Medicine, UW Medical School, Madison*

Understand the human health impact of ionizing radiation and the need to re-examine regulatory standards. **CME/CEU**

## **Breakout Session III (Choose one)**

**2:30pm - 3:40pm, Monday, December 5th**

## **Developing Local Initiatives to Eliminate Lead Poisoning**

*Local Health Department representatives*

Learn about local communities who are facing the challenge to developing a strategic plan to eliminate childhood lead poisoning for their jurisdiction. **LOL**

## **How to Develop a Case Against a Bad Actor Landlord**

Repeat Session: see Breakout II for description **LOL**

## **Laboratory Evaluation of Environmental Exposures and Using Clinical Examples**

*Noel V. Stanton, MS, Environmental Toxicology, WI State Lab of Hygiene*

*Ernest Stremski, MD, MBA*

Understand the factors that influence body burden and biomonitoring of environmental hazards in order to make clinical choices about laboratory evaluation of exposures.

**CME/CEU**

## **Local Health Department Response to EH Issues in WI: A Northeastern Regional Perspective**

See Breakout I for description

## **State and Local Perspectives on Environmental Public Health Tracking**

*Association of State and Territorial Health Officers (ASTHO) and National Association of County and City Health Officials (NACCHO) representatives*

Examine issues in environmental public health tracking, including local and state needs to ensure success of the national effort.

## **National Public Health Performance Standards and Environmental Health in Wisconsin**

*National Association of Local Boards of Health (NALBOH) representatives*

Information about using the National Public Health Performance Standards to improve environmental health service delivery. Presentation will include new guidance, models and practices developed by the National Center for Environmental Health with state, local and academic partners.

## **Health, Science, Toxins, & the Precautionary Principle**

*Bruce Barrett, MD, PhD, Assistant Professor, Dept. of Family Medicine, UW Medical School, Madison*

Learn about the precautionary principle using the history and impact of lead poisoning as an example. Discuss how the principle could be adopted today. **CME/CEU**

*Continued on the next page*

For information about the conference online, go to: [dhfs.wi.gov/eh](http://dhfs.wi.gov/eh)

Sessions marked **CME/CEU** count toward continuing medical education and continuing education credits.

## Conference Breakout Session Descriptions, Continued...

*Continued from the previous page*

### **Update on Childhood Cancer Tracking in Wisconsin**

**Kristen Malecki, PhD, Environmental Public Health Tracking Program, WI DHFS**

An update of the Environmental Public Health Tracking program's pilot tool to facilitate the automated transmission of information regarding cases of childhood cancer, including methods to assess linkages to the childhood cancers.

### **AirWays: Understanding the Links Between Air Quality and Disease**

**Leo Trasande, MD**

This session will give an overview of the major outdoor air pollutants and the current state of knowledge linking air quality to chronic disease. **CME/CEU**

### **Breakout Session IV (Choose one)**

**10:30am - 11:40am, Tuesday, December 6th**

#### **Lead Program Area Module (PAM)**

**Wendy Blumenthal and Lemuel Turner, Centers for Disease Control and Prevention, Atlanta, GA**

An introduction and demonstration of the online database to track and manage blood lead data (to replace STELLAR: Systematic Tracking of Elevated Lead Levels And Remediation). **LOL**

#### **Communicating Public Health Risks**

Repeat Session: see Breakout I for description

#### **Grant Writing How-To: Securing Local Lead Abatement Dollars**

**Janet Frederick, Grants Specialist, WI DHFS**

This session will 1) identify funding resources and 2) get you started in preparing proposals for federal, state, and private local lead abatement grants. **LOL**

#### **Local Health Department Response to EH Issues in WI: A Western Regional Perspective**

See Breakout I for description

#### **Lead in Varnish: What to do About it?**

From three different perspectives, learn about measuring lead in varnish, refinishing floors and refinishing woodwork and furniture safely. **LOL**

#### **Risk Communication: Watertown Tire Fire**

Personnel involved in the response to this incident will highlight the incident and risk communication challenges posed, jurisdictions affected and the number of agencies involved.

#### **Silver Fish in Wisconsin: Mercury Fish Advisory Awareness and Consumption Information**

Repeat Session: see Breakout I for description

#### **The Newest on Inland Beach Testing in WI: An Intervention Toolkit for LHDs**

**WI State Lab of Hygiene representatives**

Members of the State Lab of Hygiene will provide useful information regarding new EPA water quality criteria, an intervention toolkit and a new SLH beach sampling video.

### **Breakout Session V (Choose one)**

**2:30pm - 3:40pm, Tuesday, December 6th**

#### **Communicating the Benefits of a Local Food Safety Program**

**Greg Pallaske, Food Safety Program, WI DHFS**

**Local Agent Health Department representatives**

Perspective and information regarding the benefits of local EH service delivery, an examination of food safety risk factor data and how to communicate the results of risk factor data analysis.

#### **Communicating with the Public: Air Advisories and Water Stoves**

**WI Dept. of Natural Resources representatives**

**Local Health Department representatives**

- 1) A discussion with DNR about current air monitoring and advisory announcements, how and why they are issued, and how local health departments can respond to protect the public.
- 2) A discussion of the latest information on water stove use and ordinances in Wisconsin, including what's worked and what hasn't.

#### **Educating the Public on Lead Poisoning Prevention**

Learn how to do a lead storyboard activity and about working with local partners to raise awareness. **LOL**

#### **GIS Mapping to Monitor EH Risks in WI**

**Darryll Farmer, Eau Claire City/County Health Dept.**

**Conrad Weiffenbach, Radiation Protection Section, WI DHFS**

Learn about a mapping project to identify properties and send out information on programs for helping finance home improvements and foster better citywide collaboration. The second part of the session will present the latest radon maps for WI. **LOL**

#### **Linking Chronic Disease with Environmental Exposure (Repeat Session from 2004 Conference)**

**Marni Y. V. Bekkedal, PhD, Environmental Public Health Tracking Program, WI DHFS**

This session will cover the methods and challenges faced in the Environmental Public Health Tracking project specifically related to the surveillance of chronic diseases and investigations of proposed links to environmental factors.

#### **Local Health Department Response to EH Issues in WI: A Southern Regional Perspective**

See Breakout I for description

#### **State and Local Roles in Radiological Emergency Response**

**Paul Schmidt, Radiation Protection Section, WI DHFS**

**Local Health Department representatives**

For non-radiation experts, what you should know about the local health department role when radiation sources are found in your community. Includes discussion of sources in dumps/landfills, how to handle transportation emergencies, and more.

**LOL:** Session suggested for those interested in childhood lead poisoning prevention topics.

# CONTINUING MEDICAL EDUCATION TRACK INFORMATION

This year's conference includes sessions that have been approved by the University of Wisconsin - Medical School for Continuing Medical Education (CME) credits. A total of 6.5 hrs of credit are available (for Monday, December 5, 2005 sessions only). See the Breakout Session listing for information on which breakout sessions have been approved for CME credit. A separate registration fee applies to those wishing to obtain CME credit for the conference. You must pre-register on the registration form and pay the CME registration fee if you wish to receive CME credit for the course.

## **Special CME Opening Session 8—9am, December 5, 2005**

**Environmental Health Hazards in Wisconsin's Air, Water and Soil--What Physicians Should Know and What They Can Do** *Introduction to the CME conference with Henry Anderson, MD; Leo Trasande, MD; Arjun Makhijani, PhD; and Monica Vohmann, MD.*

## CME Conference Objectives

1. Present the current state of science on environmental hazards and health effects, and identify barriers and opportunities for addressing key environmental public health problems.
2. Increase the understanding of the Wisconsin medical community regarding the identification and management of significant adverse environmental health effects, including practical applications for patient care.
3. Promote the Wisconsin Environmental Health Network which provides clinical and policy information regarding environmental health in Wisconsin to health care providers and fosters their collaboration with community groups.

For more information about the Wisconsin Environmental Health Network, visit this web address: [www.wiscenvirohealth.org](http://www.wiscenvirohealth.org).

## CME Sponsorship and Accreditation Information

### **Accreditation Statement**

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the University of Wisconsin Medical School, Office of Continuing Medical Education; and the Wisconsin Environmental Health Network (Madison Physicians for Social Responsibility, Sierra Club Great Lakes Program, and Wisconsin League of Conservation Voters Institute). The University of Wisconsin Medical School is accredited by the ACCME to provide continuing medical education for physicians.

### **Policy on Faculty and Sponsor Disclosure:**

It is the policy of the University of Wisconsin Medical School that the faculty and sponsor disclose real or apparent conflict of interest relating to the topics of this educational activity, and also disclose discussions of unlabeled/unapproved uses of drugs or devices during their

presentation(s). Detailed disclosure will be made in the course handout materials.

### **UW Continuing Medical Education**

Please note, only sessions designated CME/ CEU may be used for continuing medical education credits through the University of Wisconsin, Continuing Medical School.

- Credit Designation Statement (CME): The University of Wisconsin Medical School designates this educational activity for a maximum of 6.5 category 1 credits toward the AMA Physician's Recognition Award. Each person should claim only those credits that he/she actually spent in the educational activity.
- Continuing Education Units (CEU): This program is accredited by the University of Wisconsin, Continuing Medical Education, for .65 CEUs (6.5 hours).

**Participants will be mailed a credit completion report after the conference.**

# Environmental Health in Wisconsin: A Local Perspective & Look Out For Lead 2005

Monday, December 5 and Tuesday, December 6, 2005

## REGISTRATION

*This form may be duplicated. Please register only one person per form.*

Name \_\_\_\_\_ Degrees \_\_\_\_\_

Agency/Organization \_\_\_\_\_

Address \_\_\_\_\_ Is this? ☐ home ☐ business

City/State/Zip \_\_\_\_\_

Daytime phone \_\_\_\_\_ Fax \_\_\_\_\_

Email address \_\_\_\_\_

☐ Vegetarian meal option

### Registration Fees:

Conference only Registration:

- ☐ 2-Day Conference Registration (includes Monday lunch & reception and Tuesday lunch) **\$89**
- ☐ Monday only (includes Mon. lunch & reception) **\$59**
- ☐ Tuesday only (includes Tues. lunch) **\$49**

Continuing Medical Education (CME) Registration:

- ☐ Physician Registration (includes CMEs, Monday conference, lunch & reception only) **\$139**
- ☐ PA, NP, and Resident Registration (includes CMEs, Monday conference, lunch & reception only) **\$99**

### Payment Information:

- ☐ Enclosed is my check or money order, payable to **UW Madison**.
- ☐ Please bill my agency at the address above; a purchase order is enclosed.

Cardholder's Name \_\_\_\_\_

## HOW TO REGISTER

### 3 Easy Ways to Register:

 **Mail your completed form to:**  
CALS Conference Services, UW - Madison  
620 Babcock Drive, Madison, WI 53706-1562

 **Fax your form to: 608/262-5088**

 **Register on-line at:**  
***dhfs.wi.gov/eh***

You will receive a confirmation of your registration by mail or email. Your confirmation will include directions to the conference. If you do not receive a confirmation, or **if you have any other questions about registration, please call 608/263-1672.**

**Scholarships:** A limited number of scholarships are available to students and public health staff. Contact Reghan Walsh at 608/261-9432 or walshro@dhfs.state.wi.us.

**Special Requests:** If you have a disability or desire special accommodations, please advise us ahead of time. Requests are confidential. The Monona Terrace Convention Center is fully accessible.

## L O D G I N G

A block of rooms have been reserved at a special conference rate at **The Madison Concourse Hotel**, just on the other side of the Capitol Square from Monona Terrace Convention Center. Please make your own room reservation. To receive the special room rate, identify yourself as part of the "3rd Annual Wisconsin Environmental Health Conference." **The reservation cut-off date for this special rate is November 6, 2005.** A special shuttle will run between the hotel and the Monona Terrace. Please ask at the hotel for the schedule.

### The Madison Concourse Hotel

1 West Dayton Street      **1-800-356-8293**  
Madison, WI 53703      Rate: \$62 single
